JAP PLANE BOMBS TULAGI ISLAND

Who is going to win this war?

THE answer is yours to write, right now! So far, the United Nations have taken a merciless beating on almost every front. The Axis aggressors, pressing the advantage that falls inevitably to the fore-armed, the double-crosser, the assassin who stabs in the back, have made alarming headway in too many directions.

The Axis gangsters robbed and starved their own people for years to gain this advantage—hoping to enslave the free peoples of the world. Their victims in conquered countries also do as they are told—at the point of a gun.

We, as free Canadians, still make out own decisions. We went into this war of our own free will, knowing it would be a fight for dear life and dearer freedom. This fight can and shall be won, but not without many more millions of tons of the vital sinews of war.

idle money is traitor money today— and will be worthless money if the Axis should win this war. Lend your money now, for Victory.

Canning Restrictions

The pantries of the land are going to be some changes.

The tin can will be the reason. War The tin can will be the reason. War makes tin scarce and tin is a war metal. It must be conserved. So at the end of June wide changes in canned foods are scheduled to make their bow to the people. After that date only the stocks in stores

After that date only the stocks in stores will stand between the consumer_amd the entire absence of canned pork and beans, baked beans, macaroni, paghetti and vermicelli. But then that will be no hard-ship for there are beans to buy and pork that can be had and it simply means that the housewife will have to bake the pork and beans and cook macaroni and like diabes herself.

One of the biggest changes will be the size of the tin cans. Large tins are in favor. Most of the smaller ones are to go. Large containers are more economical of tin

U. S. Sea, Land And Air Power Being Regeared

Will you outbid the Axis?

MAKE NO MISTAKE-if the Axis should win this war your children would be doomed to a life of slavery and moral degradation. To control their future the enemy is bidding all the power built up through years of totalitarian scheming and preparation.

But you can outbid the enemy ... it's up to you!

No power in this world can equal that of a free people, provided that each is determined to contribute to the last ounce of his or her strength. Canada asks you to invest every dollar you possibly can in the new Victory Bonds as an essential duty of the freedom-loving citizen.

Every bond you buy will be a bid for your children's future. Every bond will help to make victory sure. And victory will open up a glorious destiny for the youth of Canada - in a land singularly blessed by Providence and in a new world at peace.

How to Buy - Give your order to the Victory Loan salesman who calls on you. Or place it in the hands of any branch of any bank, or give it so any trust company. Or send it to your local Victory Loan Headquartess, or you can authorise your employer to start a regular payroll savings plan for you. Bonds may be bought in denominations of \$50, \$100, \$500, \$1,000 and larges. Salesman, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order

FOR VICTORY BONDS

EVERY good citizen will buy just as many Victory Bonds as he possibly can. This is the least any of us can do to make victory ours.

least any of us cain do to make victory ours. Have you given your piedge to lend your country every dollar you cain spare? If not, do it today, It is your duty as a partner in the greatest effort, yet made by free men to keep their homelands free. If you have already taken your quota, think about it come more. Surely you can find some way to increase it, if only a few dollars. Are you olamine your expenses, for instance, to

to increase it, if only a few dollars.

Are you planning your expenses, for instance, to get the most out of every pay cheque? Do you compare values when shopping in order to stretch your dollars to the utmost?

When you get your next pay cheque, jot down the expenses you expect to have between then and the following pay day. You will probably find that you have three things to do with your money:

- 1. Put aside funds for large items, such as insurance, taxes, and Victory Bonds.
 2. Take care of bills from the past—debts and instalment payments, for instance.
 3. Pay current living expenses.

3. Yay current living expenses.

Making your income cover all these items requires careful planning. But you'll be surprised to see how much a plan can help you. It makes you compare what you propose to spend with your income before you spend it. You have a chance to decide which purchases really are most important to you. You discover which items you can cut down or centil without great scarifor.

down or omit without great earnine.
Folks who get the most out of their incomes almost always plan their spending. They may keep no glaborate records of what they do with their mosey.
They may even deny that they "budget." Actually they do plan, if only in their minds, how they are going to spend their income before they spend it. going to spend their moome edger they spend it.

Careful buying can help you cut expenses, too.

In peace time it's important to compare values
before you choose. Today it's doubly important to

Younger Men in War

Iounger Men in War General McNaughton has given Cana-dians much to think of by his utterances at various times and places. They abow him a very close student of war, a leader wine has the deepest welfare of his men at heart, a man of vision and imagnation, the possessor of an inquiring mind and a wan of decident

the possessor of an inquiring mind and a man of declaim.

One of his references is to the age of the men, particularly of course the officers, engaged in war. The strain of modern war is unlike anything before in history and older men cannot bear up against this awell as young men. The Canadian Corps Commander has spoken of liantenant choule swarpens about third history and colored as warpens about third history and colored as warpens about third history and the colored history and the Canadian Corps Commander has spoken of lieutenant-colonels averaging about thirty years of age, brigadiers and divisional commanders of the age of 40 years and other senior officers under 50 years. He is a believer in the use of horse-power instead of manpower and he speak, of the Canadian Corps as the most power-

fully armored of any corps in the world. He is thoroughly modern in this respect and alert as he remarked some time ago of the possibility of new inventions mechani-cally which will provide more effective

weapons. Such an ideal of the co-ordination of mind and body is most effective in the young near who can stand the strain, can specified in the back from riding from the young near who can stand the strain, can specified in the post of the property of th

WILL WE WIN WILL WE LOSE The Battle of Hastings

To provide away over \$2,100,000 worth of, Planes, Bombs, Tanks, Guns, Shells, Ships, and other weapons of worfare, so badly needed by our men in the fighting forces.

Our men who are fighting for our freedom— for our homes—for our families, need these wea-pons to win this fight against treachery and ruth-less tyronny.

If they lose the fight, we lose ALL, families, homes, savings, EVERYTHING.

If we in Hastings do our share, we must sub-scribe more than \$300,000.00 to the Victory Loan before Saturday night, to help give them the Tools

to do the job.

Will you help?—will you do your share?—will
you lend your savings?—will you pledge port of your
future comings, as the men and women in the
armed forces and factories have done and are doing, to help protect your future and your child-ren's future from slowery or worse?

THE DECISION RESTS WITH YOU. to do the lob.

The DELISION RESTS WITH YOU.

VICTORY LOAN Closes Tomorrow

JUST ONE more day! One more day to get in your application for a share in Victory!

To-morrow night the books will close. You have only TODAY and TOMORROW to join the determined throng of men and women from every walk of life who have responded to CANADA'S TRUMPET call.

Have you any untouched resources that could be applied, in whole or in part, to the purchase of *more* Victory Bonds? Have you really bought all you can?

CANADA leaves it to your conscience to lend.

Think of the men who are enduring the dangers of battle on every front. Think of the personal peril in which we all stand at this moment. Then, review once more, what you have done against what it is possible for you to do.

And remember—every dollar is needed—and every dollar will be repaid, with interest,

TAKE a good look at a wash done with Rinso and you'll realise at once that Rinso not only washes whiter, it gives the whitest wash. In fact, you'll say the only true standard of whiteness is Rinso whiteness.

Colors wash best in Rinso, too, It keeps them bright and fresh through many months of washings. Rinso's rich suds float out dirt. They make rubbing and scrubbing unnecessary.

That is why you will find Rinso helps

to make all the clothes in your wash wear longer! Whatever your washing experience, you'll never be satisfied with snything else once you've used Rinso. Order some for this coming washday. Get the GIANT package for

WHAT YOU SHOULD KNOW

HERE ARE THE SIMPLE FACTS:

With the opening of war-in the Pacific, important supplies of sugar for the North American Continent were shut off—and may be shut off for a long while.

As good partners fighting a common flow, we have to share the svailable supply of sugar from the Caribbean and Americans sources with the United Kingdom, Russia and other allied countries.

YOU NEED NOT HOARD-YOU MUST NOT HOARD

The retail price of sugar is controlled under the Price Ceiling regulations—and will not be increased. There's absolutely no fixed for boarding, but extravagant use of sugar is inexcusable and Canadians must make some reduction in the boarsumption of it. We're looky it's not more.

Your Life Insurance in Wartime

In TIME OF WAR, the security underlying your life insurance takes on a new meaning. More than ever before, security for the family

is paramount.

While supporting that security, your life insurance dollars, invested in Government Boods, are belying to buy planes, tanks, ships, guns, and all the other implements of war. Thus your life insurance dollars are belying to safeguard your life and to protect your liberties.

At the end of 1941, Metropolitan had a total of \$1,319,913,985.74 invested in Canadian and United States Government Bonds... over 23% of the Company's assets.

In both Canada and the United States, life insurance dollars are helping to finance; the industries which are pouring out the steel, chemicals, oil, food, munitions, and other matrials needed for the war and to finance power production and transportation facilities. Each of the contract of the contrac production and transportation facilities. Each month more and more of your life insurance dollars are flowing from the channels of peace into investments that serve war uses and war

Because of public appreciation of life insur-ance, increased efficiency of our agents, and the better national income during 1941, lapses

and surrenders were at the lowest rate recorded in the Company's history.

In fulfilling its obligations to policyholders during 1941, Micropolitan paid or credited to policyholders and their beneficiaries more than 3367,900,000. Of this amount, 'more than 3363,700,000 was paid or credited to liring

SCREEN STAR has to have a smooth, soft skin.

A Ris Hayworth never neglects her Luz Toller.
Scap facial cleaning. And this is how she does it:
"First work up a general tasher and past it lightly into
part this. Next rises with sense; then a dash of
cold. Past the face lightly in dry."

Use Lux Toilet Soap the way the acreen stars do. Its Whipped Cream Lather curies away every trace of stale cosmetics, dust and dist. Leaves skin feeling smoother, looking so fresh!

Lather makes it a goggous bath soap,

Your grocer would like to sell you all the sugar you want. He has built up his business by pleasing his customers.

But right now he has a patriotic duty to perform. Canada must save sugar. So Canada has asked your grocer to keep a watchful eye on the sugar supply,

Remember, your grocer has nothing to gain— and much to lose—by seeing that you keep your purchased some to \$4 pound, peer person per week. Remember, too, that he has the right to refuse to sell ungar to anyone he believes in trying to disregard he hav, and will make a record of the names and addresses of those who buy in what seem to be efcessive quantities.

CHEMISTRY HELPS TO WIN THE WAR

Bird's Eye View of Berlin

As the R.C.A.F. bomber pilot swings his plane around over Berlin, he sees clearly the details of his target below him through a windshield of plastic material—"Lucite". For this moment of "chickens coming home to roots", a crew of high faced Canadian lads became avengers of the skies, an infant Canadian aircraft industry grew up cornsight, and a product of industrial Chemistry went to war.

"Lucite" is one of a group of many new materials generally referred to-as Plastics. It is transparent as crystal, but is only half the weight of glass. But—vital in aircraft use—it will not shatter like glass.

"Buracite" for safety-glass manufacture, and "Plaskon" Resin Glue for the fabrication of plywood for aeroplane manufacture, are two other important Plastics vital to our war effort.

You'll never be satisfied with anything else once you see RINSO WHITENESS

THE first time you see Rinsowashed clothes your experi-enced eye will detect instantly that Rinso not only washes whiter, it gives the whitest wash. In fact the only standard of real whiteness is Rinso whiteness!

Colors wash beautifully in Rinso too-they stay just as bright as new through dozens of launderings. In fact Rinso helps all the clothes in your wash to wear longer because it floats away

dirt without hard rubbing

No matter how varied your wash-No matter now varied your wasn-ing experience may have been, you have only to try Rinso once and you will never be satisfied with anything else. Use it this coming washday. Get the GIANT package, at your store, for extra economy.

THE WAR CAN
STOP IT FROM
BEING A SEASON
TO ENJOY

SPRING FASHION PREVIEW
OF THE FASHIONS THAT SMART
WOMEN AND MEN WILL BE WEARING—

SPRING . . . an old American custom . . . a Power stronger than armies . . . the season when the fires of Hope and Faith are reignited within each and every one of us. Spring and War are as far apart as the poles, and yet this year these two opposites have been rivetted together to form a union which is up to us to dissolve.

Your part may be in one of the various civilian defence activities . . . or, like millions of women and men, your part may be that of running a home smoothly and efficiently . . . keeping a family well nourished on a carefully balanced diet . . . or taking over a "man's job" in the factory, the field, or in industry.

Whatever your part — keeping calm, cool, and courageous under all circumstances is indeed a most important contribution to victory. To "look your smartest" is good for everybody's morale — your own included.

Our stores are now presenting Spring Fashions that are more appealing than ever. Simple, functional clothes for all types of activities.

Visit all our stores now and make selections of the clothes you'll need. They are "all out" to make you look your best every hour of the day and night.

Spring's the Time to Dress Your Best

There is something in the Spring air which starts every well dressed male hankering after new raiment. Whether it's a jounty Top Coat, a smartly cut suit or even just a new hat, and the odd bit of haberdashery. Especially this Spring-if he isn't restricted to navy or khaki or Airforce blue-he'll be planning to acquire that last suit with the double breasted coat and cuffs and pleats which he may purchase for the duration. More than ever, the man who buys his clothes for long wear and smart appearonce will be interested in the offerings at your favorite men's shop.

In larger centres across Canada, both inland and on the seaboard, young naval recruits are learning how to fight the axis at Volunteer Reserve Units. Here

the "colors" are raised at "H.M.C.S. York", Toronto naval barracks. Final training will be given at some coastal point. Simulated battleship lends atmosphere.

End of the first day in the navy brings up the trick of turning in. Hammocks are pretty difficult for the uninitiated. Turning in often means falling out,

but before long they will find the hammock is best in a rolling, pitching vessel. In the danger areas at sea they will sleep fully clad, ready for action.

Future destroyer officers examine torpedo tubes at a West Coast barracks. Torpedoes are the chief weapon of destroyers against enemy ships. They are designed to go to any depth and to hold their chosen course. One good hit may sink a battleship.

"Night and day, in fair weather and in foul . . ." Standing at the stern of a corvette, a duffle-coated sailor of Canada's navy is ready to let go the depth charges beside him when the order comes. The corvette

is the particular target of the U-Boats and vigilant eyes must keep on the alert in the zone of enemy operations. In the fog, a cable's length away, a sister corvette helps guard the convey with its with applica-ly like a EAR. Robergots.

In wartime, ADVERTISING performs even greater services for you

 $F_{
m or}$ all of us, life is different from what it used to be. All of us are busy with war work and war problems. All of us are pressed for time. All of us are watching our expenditures more carefully than ever. Anything that saves us time and energy and money performs a very vital service today. Advertising does that,

In days like these, advertising performs even greater services for us than in normal times. In days like these, especially, we are thankful that we have advertising to rely upon. It gives us up to date and reliable buying news...something which we need today more than ever before. . It sells us of new products and services...new prices, new uses, new sites, new containers. It advises us on how to economine, h what we have...and how to cooperate with the government's war program. It instructs us on wh to protect our lives and our homes in case of emergency. It less us know what the manufacturous of ra products are doing to help win the war. . Above all else, it mais

producer to consumer...and in doing this, advertising not only makes it possible for millions of people to keep their jobs in factories, stores, and offices, but also protects, for the peacetime years to come, the high standards of American life ... Advertising, which has served you and the nation so wolf in the past, is serving you and the nation even better today.

LOGISTICS

Strategy is the planning of warfare.

Tactics is the execution of those plans.

Logistics, the third branch of military science, is the supplying of everything necessary to strategy and tactics-in the right amount, at the right place, at the right time.

Now, in total war, we must apply the science of Logistics to all of our activities as a nation-civilian as well as military. WE-ALL are

part of the Victory Program. Our supply lines are literally life lines of the United Nations: Man-

power and munition-power are the controlling factors.

Today, Logistics dictates strategy-determines tactics.

The governments of the United Nations have appropriated billions of dollars but they cannot appropriate one single second of time.

Time favors those who appreciate it as the priceless commodity

In war, when we save time we save lives-and we make our individual contribution to Victory.

Ehall we think of death as gloom, Or of stepping o'er the threshold To a better upper room?

dom,
Shall we sit engulfed with doom
Shall we know our loved one is
happy
Walting in an upper room.
—Sadly missed by wife and family

DOUGLAS—In memory of William John Douglas, who died or March 30, 1940. The rolling stream of time goes or But still the vacant chair Recalls the dear voice and smile Of him who once sat there. —Sadly missed by wife and son TWO MEYE BYSLOV coats; two stills, both size 38; din-ing room, table; buffet; reading lamp, Phone 1982.
